PROFILE

I am a detail-oriented and forward-thinking Frontend Developer with a strong passion for creating pixel-perfect designs and enhancing user experiences. I constantly seek out innovative solutions to push the boundaries of web development. By combining my creativity and technical skills, I strive to deliver visually captivating and intuitive interfaces that engage users from the moment they land on a website.

WORK EXPERIENCE

Frontend - Software Engineer

VirtuoByte - Islamabad/Pakistan

Aug-2022 - Present

TechStack : NEXT-JS, REACT-JS, Redux, TypeScript, JavaScript, Tailwind CSS, SCSS

- Led the front-end development efforts and played a pivotal role in designing and implementing captivating user interfaces, enhancing overall user satisfaction and engagement.
- Consistently met project deadlines and exceeded client expectations by delivering high-quality, bug-free code on schedule.
- Collaborated closely with the backend development team to seamlessly integrate APIs and ensure efficient data flow, enhancing the overall functionality of applications.
- Proactively identified and resolved complex technical issues, maintaining the stability and reliability of critical applications.
- Actively participated in code review sessions, driving adherence to coding standards and ensuring codebase quality across the organization.

Freelance - Full-Stack Developer

Self-Employed - Islamabad/Pakistan

Jul-2021 - Aug-2022

TechStack : React-JS, Context-API, Sanity-IO, JavaScript, Tailwind CSS, HTML/CSS

- Developed and maintained custom websites and web applications for a diverse clientele, consistently meeting project deadlines and exceeding client expectations.
- Mentored and advised small business owners on best practices for online marketing, SEO optimization, and content management, empowering them to take control of their digital presence.
- Collaborated with local community organizations on volunteer web development projects, contributing to the growth and success of various grassroots initiatives.
- Utilized a wide range of technologies, including MERN Stack, to create bespoke solutions tailored to each client's unique needs and goals.

WORK EXPERIENCE

AARASTA

TechStack : React-JS, Context-API, Sanity-IO, JavaScript, Tailwind CSS

- Collaborated closely with local businesses to understand their unique needs and requirements, customizing the app to cater to their specific products and services.
- Designed and implemented a user-friendly search and navigation system, optimizing product discovery and accessibility for app users.
